Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response or note to any line in this Part III

1 Briefly describe the organization's mission:

The Institute's mission is to improve human health through innovative genetic research and education. Research at the Institute focuses on understanding the genetic control of normal development and susceptibility to neurological diseases using the mouse as the model system. The Institute also offers research internships for students and teachers.

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? Yes No

If "Yes," describe these new services on Schedule O.

3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? Yes No

If "Yes," describe these changes on Schedule O.

4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a (Code:) (Expenses \$ 2,236,498 including grants of \$) (Revenue \$ 903,772)

During Fiscal Year 2015, Institute scientists and staff continued their research into the genetics of degenerative nerve diseases. Institute investigators led or collaborated on thirteen different projects, working with partners in Bangalore, San Francisco, Seattle, Boston, and New York. Most work focused on diseases caused by propagation of protein misfolding that include frontotemporal dementia and Alzheimer's, Parkinson's, Huntington's, and prion diseases; results were published in peer-reviewed scientific journals. The Institute received \$721,000 in new grants and renewals to fund this work, including three new NIH grants and subawards. The Institute also continued its work funded by a two-year, matching grant of \$904,500 from the State of Montana Department of Commerce to establish the Montana Center for Aging Research and Memory Care, a partnership with the non-profit hospital of Benefis Health System in Great Falls. This grant supports the Institute's research into memory disorders and neurodegeneration, and pairs the local regional hospital's excellence in health and elder care with the research institute's extensive background in the study of the molecular and genetic causes of human dementia arising from the neurodegenerative Alzheimer's and Parkinson's diseases, as well as prion disorders such as Creutzfeldt-Jakob and Fatal Familial Insomnia. Institute (Continued on Schedule O, Statement 1)

4b (Code:) (Expenses \$ 6,249 including grants of \$ 6,000) (Revenue \$ 6,000)

The Institute serves as a resource for science education in a rural region lacking a research university. Summer internships for high school students and teachers have long been available at the Institute. The goals of the Institute's education programs are to foster critical thinking, enhance science literacy, and help train the next generation of scientists. After a six-year, \$517,000 grant from the Howard Hughes Medical Institute for a novel program to enhance science education ended in Fiscal Year 2014, the Institute returned to its original structure of two to three summer internships in Fiscal Year 2015. In summer 2014, two pre-college students participated in the Institute's laboratory internship programs, working with research staff using the neurosphere model to study prion susceptibility and infection. Institute faculty, postdoctoral fellows and research assistants worked with and trained the students in various lab processes, including immunostaining and imaging. While the HHMI project has been completed, the Institute is committed to continuing its long tradition of training and support for local students and teachers and continues to raise funds that specifically support these programs.

Form 990, Part VI, Section A, Line 2 - Many members of the Institute's Board of Directors are prominent members of the business community and include attorneys, accounts, general contractors, doctors and retailers who provide services and products on an arms-length basis to the community and surrounding trade area including other members of the Institute's Board of Directors.

Form 990, Part VI, Section B, Line 11b - The Form 990 is prepared by finance staff, with additional review and advice from an outside accounting firm. The draft 990 is then reviewed in detail by the finance committee and submitted to the full board for review, questions and comments before filing.

Form 990, Part VI, Section B, Line 12c - Board members are required to complete a conflict of interest questionnaire on an annual basis. Institute activities are very specialized with a relatively small number of suppliers. The Financial Officer is responsible for monitoring transactions with parties related to board members. The Institute maintains a separate conflict of interest policy for its research staff to ensure compliance with federal regulations regarding disclosure of conflicts.

Form 990, Part VI, Section B, Line 15 - The Institute's Board of Directors and Scientific Advisory Committee review and approve compensation paid to the Institute's Director/President. Among other things, the Board reviews compensation surveys conducted by the Association of Independent Research Institutes. All Institute salaries are discussed and reviewed by the finance committee as part of its annual budget review process.
